Based on the strength of his qualities and thirst for social development, he was honoured the Chief Ministership of Maharashtra twice, and gradually took a leap to become the Home Minister and Finance Minister of India. He was instrumental in activating the water movement in the Marathwada region of Maharashtra. He was an insightful leader with profound wisdom and high moral values, who contributed immensely in building Maharashtra as a progressive State. ## From the Principal's Desk

In the era of globalisation, Legal Education offers exciting opportunities for learning and career development. Law is inherently interdisciplinary and shaped by knowledge and perspectives from other disciplines. Law as a professional career provides opportunities to young students as law and society are intertwined. It is rightly said by Prof. (Dr.) Ranbir Singh, “the Bar has, in all the ages and countries, gradually fascinated the ambitious and the adventurous and it has thrown up or produced, relatively speaking, the largest number of great men in public life and the leaders for the battle of freedom. It has been the nursery of great judges, orators, statesmen, and even revolutionaries...the history of our own independence movement, if impartially written, will devote more pages to lawyers than to any other vocation.”

We, at Shankarrao Chavan Law College Pune, provide excellent facilities that are in tune with intensive academic instructions. Academic integrity coupled with innovative pedagogy create a motivating atmosphere for developing a holistic perspective. We intend to facilitate training which caters to the present needs of students. By crossing the barriers cum traditional methods of teaching-learning, we give maximum exposure to students, which is the need of our times. The well-equipped library with international resources gives the students access to comprehensive legal resources that helps them gain in-depth knowledge of the laws in theory and practice.

We consider it a responsibility to shape and mould students, so that they confidently sustain in the competitive world and treat the profession with high regards. SCLC teaches values of compassion and tolerance, which reflects in students becoming good human beings.

Established in 2003, SCLC has carved a niche for itself among the law colleges in Pune with its academic records and achievements through a plethora of merited events. It has become one of the pioneering colleges imparting quality legal education, a reputation that gets encapsulated in the College being one of the preferred choices for aspirants across India and abroad too. It has secured highest student satisfaction in a short span of time, which is an unparalleled achievement for us.

### Why Law and MMM's SCLC?

In the last several years, the legal profession has experienced overwhelming growth. A steady rise in profits and revenues, expanded headcounts, and significant increase in salaries have provided numerous job opportunities in a broad range of legal positions. Studying law offers the opportunity to develop a gamut of skills and explore many aspects of human life. It gives you the scope to sharpen your mind, strengthen your understanding, and deepen your experiences across the disciplines of humanities and social sciences.

A law degree not only gives you the scope to become a lawyer but also an efficient researcher, politician, journalist, diplomat, police officer, and so on. Legal knowledge helps a student competently appear for civil service exams, pursue careers in management, business and government services. Lawyers serve the society by becoming a voice of vulnerable groups, who cannot speak for themselves, such as children, women, and senior citizens. Specialised practice areas in the legal profession include: criminal law, civil law, family law, taxation law, environmental law, Intellectual Property law, and so on. International career opportunities for law graduates have opened up as firms and corporations are crossing international borders.

Keeping all this in view, it is extremely important for you to select a good academic institution for becoming a successful

professional. In addition to imparting proper theoretical knowledge, our College gives the students opportunities to explore all the practical aspects of the legal field.

One of the noteworthy features of our College is that it is centrally located at Deccan, which is the heart of Pune city, an educational hub known as 'Oxford of the East' and surrounded by acclaimed national and international educational institutions. Pune is a vibrant metrocity also well-known for industry, information technology, entertainment, and much more.

Shankarrao Chavan Law College, Pune has a dedicated team of highly qualified and experienced teaching faculties. We are privileged to be closely associated with prominent legal professionals as visiting faculty, who whole-heartedly facilitate quality legal education. Our library is fully digitised and well-equipped with books, journals, reference and reading material, etc. Maximum exposure is given for students to acquire competencies in mootings, conveyancing, debating, effectively communicating, etc. through various Cells and platforms. Also, we have an active Cultural and Sports Department for students to enhance their extra-curricular skills.

The National Assessment and Accreditation Council (NAAC), Bengaluru has accredited our College with 'A' Grade in the very first cycle, which is a mark of distinction

## *Building innovation and creativity*

“Creativity is thinking up new things. Innovation is doing new things.”

Intellectual property is a part and parcel of our life. No matter what we do and where we are, we are always surrounded by the fruits of human creativity and inventions which make our life much easier. IPR became a significant area of discussion in the last two decades with the establishment of WTO and TRIP's agreement. Research and innovation in India emerges from the need of academic discussions and debate both from industry and academic institutions to come up with creative solutions to the problems. IPRs are not only enforceable in India but also globally. We need to impart the knowledge for protection of different IPRs to the younger generation in order to develop a conducive environment, where they will be equipped to create original innovations and protect them simultaneously.

With this objective, the IPR Cell was established at SCLC to provide a platform, share, and discuss latest development and applications with practical exposure to students, faculty members and research scholars.

## Social Outreach

### Legal Aid Centre

*Extending helping hands*

The Legal Aid Society was established on a powerful belief that no Indian should be denied the right to equal justice. The Centre seeks to be a beacon of hope for Indians who feel neglected regardless of who they are, where they come from, etc. Being an important stakeholder in the legal field, we owe a duty towards society to shoulder the responsibility of providing legal aid to the masses at large. The institutional support provided through this Centre helps the society get access to justice through 'expertise without any expenses.' The students, on the other hand, benefit from the practical exposure and knowledge, which they explore being a part of this Centre, and while working on various projects and activities undertaken by the Centre.

## Student Testimonials

**Neha Kelkar (3rd LL.B.)**

*"I consider myself fortunate to be a student of this institution. I came to know so many hidden qualities about me through this Institution and that surely helped me in my profession. I had an amazing experience with faculty members. They have been mentors to me, supported me in my failures and made me complacent in my success. The Principal being the head of the institution has been the torch-bearer whom we look for constant inspiration."*

**Arya Teredesai (4th BA.LL.B.)**

*"Shankarrao Chavan Law College has given me a wonderful experience of learning with academic and cultural exposure. I have great respect and love for all faculty members and departments. They provide a supportive and engaging learning environment and are always available to provide additional support and guidance, whenever needed. While focusing on academics, the College has established various cells like, CARPEL and IPR, etc., for students who wish to gain more exposure in specific areas or develop their research or writing skills."*

*After completing my education at SCLC, I am eager to become a Lawyer and use the knowledge and skills that I have gained during my studies to make a positive impact on my community."*

**Sai Kulkarni (5th B.A. LL.B.)**

*"MMSCLC has been a great supporter, nurturer, and a catalyst in my journey towards becoming a lawyer. As a first-generation lawyer, it can be quite daunting to step into the field. However, I can truly say that the College has made it so much easier. Here, it is not just about the academics, but also about developing our skills and personality in the right directions through various skill building courses, workshops, seminars, competitions, and even just one-on-one help. The faculty and staff are helpful and encouraging. It is due to the constant opportunities, I have been able to represent the College at National level and been able to grab different opportunities as an intern, national and international journal editor and publisher. It is a truly holistic experience being here, from academics to activities to even making good contacts in the field. The College has always been keen on keeping us up with all the new emerging trends in law and encourages us to explore those. MMSCLC always strives towards the betterment of its students, faculty and the institution as a whole. I am glad to be a part of such an institution which has shaped and moulded me as a lawyer that I want to be."*

**Chinmayee Kulkarni (4th B.A.LL.B.)**

*"I have been part of SCLC for the last 4 years and now it has become an important part of my life. Since the initial admission process, the College has been supportive and it helped newbies like us effectively. The lectures delivered by each professor since my first year were really good and it actually helped me understand difficult concepts. Also, the professors are very friendly and ensure that we have a close bond with them. All the issues are dealt with very calmly and literally they are our support system. The activities and programs conducted by our College are of varied nature where students are enlightened with knowledge as well as other aspects of life. My experience with SCLC has been great and even after my graduation it will remain in my heart. I am always grateful to all my professors and our Principal for the great learnings they gave me."*
