The awareness of human rights is of utmost importance as it serves as the foundation for building a just, fair, and inclusive society. Human rights are fundamental rights and freedoms that are inherent to all individuals, regardless of their race, ethnicity, gender, nationality, religion, or any other status. These rights are protected by international law and are intended to ensure the dignity, equality, and well-being of every human being.

Every year, through this CHRA the College organizes "**Human Rights Week**" for all the students of Law fraternity with the object of inculcating human rights values and sensitizing the students about the promotion of human rights. Celebration of this week is an endeavor on our part to sensitize students about human rights and make them understand the strength of the legal profession in the recognition and enforcement of human rights of various classes of society.
