# Acknowledgements

---

I would like to acknowledge the following people and organisations for their contributions to this research paper:

My advisor, Dr. Sourabh Ubale, for his guidance and support throughout this project.

MMM's Shankarrao Chavan Law College for providing me with access to their data and resources.

My family and friends for their encouragement and support.

This research would not have been possible without the help of these individuals and organisations.

I am grateful for their contributions.

## Preface

---

We have been endowed with abundant environmental resources. It is our responsibility to safeguard them for the future generations. Maintaining environmental compliance is critical for preventing environmental damage.

This research focuses on the importance of environmental compliance. It examines the various environmental restrictions, the difficulties in adhering to them and the benefits of doing so. It also offers tips on how to ensure compliance.

This research project stemmed from my strong interest in environmental conservation. I feel that we all have a responsibility to protect the environment. With this essay, I wish to improve people's awareness of the need for environmental compliance and encourage them to take steps towards ensuring it.

I would like to thank my advisor, Dr. Sourabh Ubale, for his guidance and support.
