An honest and visionary political leader, an eminent lawyer who advocated Social Justice.

SCLC cherishes the memories of the Founder President of Marathwada Mitramandal, a great parliamentarian, an able administrator, and an excellent orator Hon'ble Late Shri Shankarrao Chavan. He started his career as an advocate but soon gave-up practicing law to join the Hyderabad Mukti Sangram. Based on the strength of his qualities and thirst for social development, he was honoured the Chief Ministership of Maharashtra twice, and gradually took a leap to become the Home Minister and Finance Minister of India. He was instrumental in activating the water movement in the Marathwada region of Maharashtra. He was an insightful leader with profound wisdom and high moral values, who contributed immensely in building Maharashtra as a progressive State. His fondness for education and a futuristic approach for the welfare of masses led to the establishment of 'Marathwada Mitramandal,' which presently has a diversified group of educational institutions in Pune city and suburbs of Pune.

More than 12,000 students are pursuing their degrees in the institutions run by the Trust in four independent Campuses. In order to honour and inculcate his values, Shankarrao Chavan Law College was established in the year 2003, which is now a premier law school earning many laurels and accolades in the academic spheres at national and international level.

From the Principal's Desk

In the era of globalisation, Legal Education offers exciting opportunities for learning and career development. Law is inherently interdisciplinary and shaped by knowledge and perspectives from other disciplines. Law as a professional career provides opportunities to young students as law and society are intertwined. It is rightly said by Prof. (Dr.) Ranbir Singh, “the Bar has, in all the ages and countries, gradually fascinated the ambitious and the adventurous and it has thrown up or produced, relatively speaking, the largest number of great men in public life and the leaders for the battle of freedom. It has been the nursery of great judges, orators, statesmen, and even revolutionaries [...] the history of our own independence movement, if impartially written, will devote more pages to lawyers than to any other vocation.”

We, at Shankarrao Chavan Law College Pune, provide excellent facilities that are in tune with intensive academic instructions. Academic integrity, coupled with innovative pedagogy, creates a motivating atmosphere for developing a holistic perspective. We intend to facilitate training which caters to the present needs of students. By crossing the barriers cum traditional methods of teaching-learning, we give maximum exposure to students, which is the need of our times. The well-equipped library, with international resources, gives the students access to comprehensive legal resources that helps them gain in-depth knowledge of the laws in theory and practice. We consider it as our responsibility to shape and mould students, so that they confidently sustain in the competitive world and treat the profession with high regards. SCLC teaches values of compassion and tolerance, which reflects in students becoming good human beings.

Established in 2003, SCLC has carved a niche for itself among the law colleges in Pune with its academic records and achievements through a plethora of merited events. It has become one of the pioneering colleges imparting quality legal education, a reputation that gets encapsulated in the College being one of the preferred choices for aspirants across India and abroad too. It has secured highest student satisfaction in a short span of time, which is an unparallel achievement for us. SCLC is committed to make a significant contribution to the legal profession and shape dynamic aspirants of law.

Why Law and MM's SCLC?

Law at SCLC

In the last several years, the legal profession has experienced an overwhelming growth. A steady rise in profits and revenues, expanded head counts, and significant increase in salaries, have provided numerous job opportunities in a broad range of legal positions. Studying law offers opportunities to develop a gamut of skills and explore many aspects of human life. It gives you the scope to sharpen your mind, strengthen your understanding, and deepen your experiences across the disciplines of humanities and social sciences.

A law degree not only gives you the scope to become a lawyer but also an efficient researcher, politician, journalist, diplomat, police officer, and so on. Legal knowledge helps a student competently appear for civil service exams, pursue careers in management, business and government services. Lawyers serve the society by becoming a voice of vulnerable groups, who cannot speak for themselves, such as, children, women, and senior citizens. Specialised practice areas in the legal profession include; Criminal Law, Civil Law, Family Law, Taxation Law, Environmental Law, Intellectual Property Law, and so on. International career opportunities for law graduates have opened-up, as firms and corporations are crossing international borders.

Keeping all this in view, it is extremely important for you to select a good academic institution for becoming a successful professional. In addition to imparting proper theoretical knowledge, our College gives the students opportunities to explore all the practical aspects of the law field.

One of the noteworthy features of our College is that it is centrally located at Deccan, which is the heart of Pune City, an educational hub known as 'Oxford of the East' and surrounded by acclaimed national and international educational institutions.
